

Coachella Valley Mountains Conservancy

Climate Resilience and Community Access Grant Program

Funded by the State of California General Fund

Addendum #1: Requests for Proposals CRCA 2023-01, 2023-02 & 2023-03 related to Wildfire Resilience Projects

January 10, 2024

Due to the current state of California's budget situation, please be advised that the RFPs for Wildfire Resilience funding cited above are hereby suspended. If the final budget to be enacted in June restores the funding, an additional Addendum will be issued with a new schedule for the application process.

Note that appropriations for the Proposition 1 and Proposition 68 grant programs and for RFP CRCA 2023-04 are NOT affected and the funding rounds previously announced will still take place.

Applicants that were considering applying for Wildfire Resilience funds may wish to consider submitting applications for the other programs to the extent that their proposals (or parts of them) meet the qualifications for those programs. Please feel free to contact CVMC staff to discuss questions about that or anything else related to these programs.
